Rev. Roy Taylor Inducted Into Ministry of St. Paul's United Church

Laymen Take Prominent Part in Service and Strong Ministry of Congregation's Help.

After five months as supply at St. Paul's United Church, Coleman, Rev. Roy C. Taylor, B.A., B.D., formerly of First United Church, Lethbridge was inducted into the pastoral charge as the regular minister. Before a full church Rev. Norman W. Whitmore, B.A., chairman of Lethbridge Presbytery, the impressive ceremony of installation was carried out.

On the platform with Mr. Whitmore were the Revs. A. L. Elliott, M. A., B.D., and John Wood, of the latter. The chairman conducted the worship and Rev. A. L. Elliott delivered a thoughtful and inspirational sermon taking as his text John 4:24.

Mr. Lewis Jones rendered a solo "In the Garden"; Mr. J. Shevels of Bellevue gave the choir the "Bells of the Valley" and spoke words of helpfulness and encouragement. Rev. John Wood in addressing the congregation, spoke highly of Mr. Taylor's qualifications and urged the members and adherents to co-operate in making this ministry a source of blessing to the community.

The minister being inducted was duly led to the pulpit by Revs. Elliott and Wood and spoke briefly to the congregation. Before concluding the first part of the induction service Rev. Mr. Whitmore asked Mrs. Taylor to come forward and on behalf of the Ladies' Auxiliary and the congregation, Mrs. Taylor was presented with a beautiful bouquet of roses and carnations. Little Miss Isabelle Ewing made the presentation.

Mr. Wm. Lees, chairman of the board of managers, then took the chair and called on Mr. A. Cameron to say a few words. Mr. Cameron spoke very encouragingly, bespeaking for the new minister the very best support of the congregation. Mr. L. Jones then rendered another solo. Mr. A. Beck, another member of the session, was also asked to speak and in a very concise speech stressed the point that the minister alone cannot fill the church. We were all to blame.

The session, the choir, the congregation all had a part in increasing the attendance at church. Mr. Lees said a few words in concluding the after meeting and at the conclusion delightful refreshments were served by the Ladies' Auxiliary. Among those present were Rev. A. E. Larke of Blairmore. Three carloads of friends were present from Pincher Creek, where

Avoid 5 Per Cent. Tax Penalty

by paying 1932 town taxes before March 15. Not amount for 1932 will be accepted if paid before that date. Positively no extension beyond March 15.

PAY NOW AND SAVE!

JAMES FORD,
Secretary-Treasurer,
Town of Coleman

Mr. and Mrs. Taylor are well known. Mr. and Mrs. McAllister, Mr. and Mrs. Langdon, Mr. and Mrs. Newman, Mr. and Mrs. Halton and Mr. Robert Henderson, all of Pincher, were in attendance.

Thus Coleman begins another milestone in the history of church activity; her many friends wish all that is best for the harmony and usefulness for a ministry so favorably begun.

THE ADANACS

The Adanac Club held their regular meeting on Friday, Feb. 24th. After a few rounds of cards, a play was put on by some of the members. John MacDonald excelled as the cool, calculating and cunning husband, while Marie Naylor was the wife who always had her own way by doing what her husband advised her against, thereby doing as she wished. This part was also well taken. Bert Bond acted the part of the mal-de-morian passenger—no more—that it was two hours after the play before Bert realized that he was not at sea. Earl Bowen was one of the best luggage-luggers that has ever crossed the legitimate stage. The evening closed with dancing. A huge hall has been planned for Friday, March 24th, and according to present indications it is sure to be a real time.—Con.

WEDDING ANNOUNCEMENT

Mr. and Mrs. George Kellock announce the marriage of their daughter, Agnes Penman Kellock, to Mr. John Charles Pratt, son of Mr. and Mrs. Charles Pratt, of Medicine Hat, on February 14, at Noranda, Quebec.

John Johnston Laid to Rest—Honored by R.C.M.P. as Pall-Bearers

Honored in Death by Famous Police Force of Which He Was One of the "Originals"

Honored by the force of which he was one of the original members, John Johnston, pioneer mounted policeman and later farmer in the foothills country, was laid to rest in Coleman cemetery on Feb. 22, the immediate relatives and a number of old-time friends from Coleman and Cowley district being present. Six scarlet-clad troopers of the Royal Canadian Mounted Police were pall bearers, by permission of the district officer commanding.

The service was held in St. Paul's United Church, which Mr. Johnston regularly attended when he lived here prior to moving to Spokane, where he passed away. Rev. Roy C. Taylor in his remarks referred to the loyal body of Mr. Johnston before leaving the church, after which the committal service took place at the cemetery.

Many old acquaintances viewed the body of Mr. Johnston before leaving the church, after which the committal service took place at the cemetery.

It is about seven years since he left here, following the death of his wife, who was buried in the local cemetery. Even at the advanced age, he retained an upright figure and the full use of his faculties, so that he could furnish many interesting reminiscences of old times in Southern Alberta.

Mr. and Mrs. Plante desire to express thanks for many messages of sympathy to the Rebekah Lodge, the R.C.M.P., those who sent flowers and who loaned cars for the funeral.

ADANACS ENTERTAIN FRIENDS

The Adanac Club's program of four one-act plays on Friday evening provided a splendid evening's entertainment for members and friends. The plays, directed by Mr. and Mrs. Arthur E. Graham, were taken part in by the following: The first, John McDonald, Marie Naylor and Bert Bond; the second, Marjorie Halliwell, Margaret McDonald, Ben Blain and A. S. McIntock; the third, Irene James, J. Cousins and Robert Bell; the fourth, Mrs. A. E. Graham, Mr. A. E. Graham, Mae Bell and Reggie Jones.

Particularly amusing were numbers three and four. Jim Cousins endeavoring to live on a champagne scale on a wheelbarrow salary, and his wife Irene James, counting the cost to her sorrow. "Brick" Bell, the benefactor in disguise, helped in furnishing many laughs in a very funny comedy. Mrs. Arthur Graham's characterization of the old lady endeavoring to create an impression on her prospective daughter-in-law was very good indeed, her mannerisms and attempts to use slang terms in a dignified manner creating roars of laughter. The characters were well taken.

Following the plays, refreshments were served, and the remainder of the evening till midnight was spent in dancing.

GIRL GUIDE NOTES

A party, including patrol leaders and seconds of the Girl Guides, passed various tests on nature study and signalling on Saturday. They went for a hike to Star Creek, Mrs. Borden, captain, and Miss Yuill, lieutenant, accompanying the party.

Mrs. Borden, who has been appointed district commissioner, will attend the annual provincial meeting at Edmonton next week.

ST. ALBAN'S CHURCH, COLEMAN

Next Sunday, the second in Lent, the services will be, 11:15 a.m. Holy Communion; 12:30 p.m. Sunday School.

Every Wednesday during Lent there will be Holy Communion at 10 a.m., and every Friday, evensong and address at 8 p.m. All are cordially invited.

UNITED CHURCH NOTES

Services on Sunday at 11 a.m. and 7 p.m., the Rev. Roy C. Taylor, B.A., B.D., preaching at both services. A cordial invitation to attend is extended to all.

The Journal office can fit your orders for commercial stationery

CALEDONIAN SOCIETY SECOND ANNUAL MEETING

About 50 members attended the annual meeting held in the Knights of Pythias hall on Feb. 24. Reports of the year's activities were submitted by President D. Gillespie and J. Park, secretary. A credit balance of \$50 was shown. Chief activities of the year were the annual Burns celebration, a picnic during the summer, and Christmas treat, besides concerts and meetings.

Archie McCulloch was elected president; Bob Morris, vice-president; Mrs. M. Wilson, convener of ladies' committee. The appointment of secretary-treasurer was held over till next meeting, March 24. Mr. Park declined to take the office, as he had already served two years, and urged that someone else take a hand.

Personal and Local

Coleman representatives on the executive of the Crow's Nest Pass Golf Club are J. A. McLeod, vice-president; W. L. Rippon, secretary-treasurer; G. Pattinson. The annual meeting was held in the Greenhill hotel on March 1st. The date of the annual tournament will be decided next week.

The report that the department of municipal affairs were considering appointing a public administrator for Blairmore, in the interests of the citizens, was a reprimand in mild form for last year's council. The annual financial statement was not drawn up at the usual time, and the delay caused some concern. Last week it was stated that the annual meeting would be held following the publication of the statement.

Mayor Douglas of Fernie stated that during 1932 \$90,054 has been spent on work on which relief labor was employed. \$23,445.34 was for material, leaving \$66,609 paid in wages. Over 300 families had been assisted at one time, representing between 1000 and 1200 people. In addition the Christmas cheer fund has helped cases which did not receive city relief. The mayor said the future was not at all bright.

The Canadian Labour Defence League has been served with a garnishee for \$4007 claimed by a Regina solicitor for services as defence counsel at Estevan in the trial of Isadore Monast, Martin Day, Sam Scarlett, Anne Butler, James Sloan, Martin Forkin and others. The charges arose out of the fatal riot at Estevan provoked by strikers marching into town against the orders of Mayor Bannatyne. The strikers were killed and several police and civilians wounded.

Every line of type costs money to set; it costs money to gather the news; it costs money for paper, fuel, light, water and electric power. Therefore it costs coin of the realm to produce a newspaper. Kindly see that your subscription is in good standing. It costs in mechanical labor and production charges \$6.00 per column without any profit to print The Journal. Hence you will see the necessity of subscribers paying promptly, and observing the golden rule.

ANNOUNCEMENT

The Rebekahs will hold a sale of work and pantry sale on March 11th starting at 2:30 p.m. Tea will be served from 3 to 6 o'clock. Whist drive and dance in the evening commencing at 8 o'clock.

ANNOUNCEMENT

F. M. Thompson Co., Blairmore, state that the special 10 per cent. discount on all boots and shoes has been well received and will continue till Saturday evening, March 11.

Spring is coming! The splendid new consignments of coats, suits and hats for ladies and misses are extremely smart and are excellent values. People of the Pass towns are cordially invited to our spring showing of these newest styles.—F. M. Thompson Co.

ANNOUNCEMENT

Mr. Melville Anderson, of Anderson & McLean, sight specialists, Calgary, announces his next visit to G. R. Powell's, Coleman, on

Tuesday, March 28

20 years' experience and regular visits assure you of satisfaction in all optical work.

ANNOUNCEMENT

On March 17, in the I.O.O.F. hall, Bellevue, Ken. Blain is staging a St. Patrick's night dance, for which the well-known Arcadians orchestra has been engaged.

Going Out For Business Sale

BASKETBALL GAMES—BLAIRMORE VS. COLEMAN

Basketball teams from Blairmore (boys and girls) met defeat by Coleman in games on Feb. 23. The boys won by a score of 44-19, and the girls by 24-12, thereby helping to even up the defeats they suffered on a previous occasion at the hands of Blairmore.

It was Coleman boys first match and they showed some nice team work, but poor shooting was noticed by both teams, particularly in the first half. Blairmore had only six men their regular team playing elsewhere that evening.

The Coleman Adanac Club girls played Blairmore Young People's Club (juniors) and were elated over their win, having suffered two defeats. The Adanacs show improved skill in shooting and much better team work. Aschaker of Blairmore handled both games very efficiently.

The line-up of the girls: Blairmore: Carnation, Moore, Harmer, Schater, Watson, McDonald, MacDonald, Chappell, Hays. Coleman Adanacs: Halliwell, Jones, McLeod, P. McDonald, Bell, M. McDonald, Atkinson.

Blairmore boys: Blake, Holmes, McPhail, Perry, Lord, Scott. Coleman: Price, Atkinson, McDonald, Cousins, Spillers, Emmerson and Jones.

GIRL GUIDES DANCE REVUE EARNS PRAISE

The dance revue recently held in Blairmore, directed by Miss Eileen Jones, of Hillcrest, was commented on as follows by the Blairmore correspondent to the Calgary Herald:

"The easy and graceful manner in which members of the class performed their dances was a treat to watch, and the numbers were encored many times by the audience. Considerable credit is due Miss Jones for the success she met in training the children in their various dance numbers."

"During the programme a troop of Girl Guides and Brownies put on a drill and parade, and sang troop songs which met with the approval of the large audience."

Welsh People in Coleman Celebrate National Day of Wales

St. David's Day Celebrated in Song and Story by Local Society.

March 1st was the day on which the Coleman Welsh celebrated the anniversary of St. David, the patron saint of Wales.

Many were the sons of Cymru who were grossly insulted by being asked why they wore those thick-legged onions in their coats, by well-meaning English and Scotch. However, with their leeks pinned on their coats, over two hundred Welsh and their friends marched boldly into the Knights of Pythias hall to be seated to a sumptuous banquet, while daffodils by the dozen looked on in awe from vases and lapels. Red Dragons were in evidence while a mystic phrase beneath stated "Cymru am Byth." With little ladies in high black hats, red flannel petticoats, and Welsh shawls running around, it became quite evident that the children of the "Land of Song" were having their day.

Grace was asked by Mr. John Williams, while following the supper Mr. Robert Evans gave an enlightening speech on St. David, and some of the high lights of Welsh history. The chairman, Mr. Elias Jones, after toasting "The King," also added other anecdotes of Welsh prowess, including one which took place at Twickenham recently.

Rev. Mr. Farrington gave the toast "Land of Our Adoption," while Rev. Mr. Taylor responded. Both stressed the fact that Wales is adding her share of musical culture to the melting pot of Canada.

Rev. Father Spence, who was to give a toast "The Visitors," was unfortunately unable to attend, while Mrs. D. Davies of Hillcrest, who was to sing, was also unable to attend.

Eileen Richards and Delys Brown won the prizes for the best essay on St. David, while Joyce and Thelma Williams won for the best Welsh costumes. After the concert the people danced until well into the morning to the music of W. Mason's orchestra.

The remainder of the program follows:

Baritone solo, W. Hayson, "Make New Friends"; tenor solo, Geo. Hibbert, "Dreams"; violin solo, David Jones, "Air Varie"; soprano solo, Ismay Hadley, "Ash Grove" (Llwyn On); baritone solo, Howell Powell, "Three for Jack"; recitations, Mrs. Gurney's pupil; soprano solo, Miss Brenda Cross, "When Grandpa Met Grandpa"; piano duet, Olwen and Vernon Brown, "Flying Doves"; soprano solo, Eileen Richards, "Charming Chloe"; violin and piano ensemble, D. and E. Moores; tenor solo, Percy Rhys, "Homeland"; soprano solo, Irene James, "Love Come Calling"; baritone solo, Lewis Jones, "Hen Wlad fy Whadan"; God Save the King.

A watch drawn for in the Polish hall at a dance was won by R. Burns with ticket No. 250.

Welcome Announcements.

The recent statement by Premier Bennett in the House of Commons in which he outlined the attitude of himself and his Government on the subject of reciprocal trade relations with the United States, and in which he declared that the United States was Canada's natural market, constitutes, not only an announcement of great interest and importance, but it has the effect of removing, at least so far as the principle involved is concerned, this particular phase of the tariff question from the realm of partisan politics. Differences of opinion as to details of any such trade arrangement may exist or develop between the two great political parties in this country, but, so far as the question of the desirability of such an arrangement, it has now been quite plain that there is no difference of opinion.

To all those who feel that the important question of the tariff should, as far as possible, be removed from the arena of partisan political controversy, this unanimity of view will be most gratifying, as well as a most hopeful sign that at no distant date a marked improvement in the trade relations of these two great countries, having so many things in common, and divided only by an imaginary boundary line, will be effected.

Premier Bennett made his momentous announcement when speaking to a resolution moved by a Liberal member, and which was worded as follows: "That, in the opinion of this House, it is expedient that the Government of Canada re-open negotiations with the Government of the United States of America with a view of bringing about a satisfactory reciprocal trade agreement between Canada and the United States whereby the natural products of Canada, that is the products of the sea, the farm, the mines, and the forests, and including fish, lumber, wheat, cattle, etc., should have free entry into the United States in exchange for the admission of certain goods from the United States of America, which in the interests of both countries may be admitted into Canada, free from customs tariffs."

Almost equal in its importance to Premier Bennett's statement, is the announcement contained in press despatches that the new Administration at Washington, under the guidance of President Roosevelt, proposes to make overtures to the Canadian Government looking to the negotiation of such a trade agreement or treaty, if, indeed, such overtures have not already been tentatively made.

Canadians generally will welcome these new developments, and nowhere will they be received with greater goodwill, and with sincere hopes that success will attend such negotiations, than in the provinces of Western Canada. Unquestionably, the continent of North America is one economic unit, however it may be divided politically and nationally. Nature made it so geographically and climatically.

The United States supply Canada with many things we do not, and cannot, produce for ourselves—cotton, tropical and semi-tropical fruits, anthracite coal, many articles of manufacture, to mention only a few items. On the other hand, the United States stands in need of enormous quantities of other natural products which Canada can supply in abundance. Why, then, should both countries erect barriers against the natural exchange of such commodities to the disadvantage of both?

Here in Western Canada we can raise tens of thousands of head of range cattle, but we are handicapped in finishing them for market, including the British market, and are at a distinct disadvantage in competing with the Argentine. But the United States raises enormous quantities of corn for feeding purposes. What is more natural than that Western Canada should ship thousands upon thousands of stocker cattle to the corn states to the south to be fattened for market? Both countries would profit thereby.

Why should the Maritime Provinces be forced to look for markets long distances inland in Ontario and Quebec, even in the West, with the rich markets of the great cities along the U.S. Atlantic seaboard right at hand and easily and cheaply reached by water transportation? Why should Ontario, lacking coal supplies of its own, be denied free and cheap access to the great coalfields immediately to the south but in the United States? Why should either country cripple the natural flow of trade north and south, fighting geography in an uneconomical fashion, while striving for markets thousands of miles away?

Is it now admitted, almost universally, that the troubles which today beset the world are almost entirely of our own making, the result of our own blindness and stupidity, and not the fault of an all-wise Providence nor the breakdown of the immutable laws of Nature?

Canada and the United States have set the world an object lesson for more than one hundred years of an undefended boundary line thousands of miles in extent. We have shown the nations of the world how international relations should be conducted so as to avoid all physical warfare. Can we not also show the world, in its present time of distress, how international economic relations should be governed so as to avoid economic warfare?

Assuredly we can, if we will. And it is because we should do so that these announcements of the past few weeks are so welcome, so promising of great betterment for the people of both countries. And to us in Canada especially welcome as indicating a unity of desire and policy on the part of all our political parties in the advancement of the common good and economic welfare of this Dominion.

Canada's Shoe Industry

One of the Canadian industries to show increased production in 1932 was the leather boot and shoe factories. A corresponding decline was shown in imports of these commodities. In 1932 Canadian factories produced 17,879,218 pairs, while imports totalled only 343,995 pairs.

Great Britain has the highest taxation; France comes second and Germany third.

A \$4,250,000 paper mill is being built at Ellesmere, England.

Dog Runs Elevator

"Bal," a German pointer dog, has mastered the mysteries of elevator operation. He visits his owner, Robert Mullen, daily in a Denver office building, using his nose to push the button that sets the automatic elevator in operation. He also makes occasional visits to other tenants in the building, going from floor to floor unattended via elevator.

So rapidly has post-war ship design developed that a modern 40,000-ton liner costs less to run to Montreal than a 20,000-ton 30-year old rival.

Headaches and Dizzy Spells Nerves in Bad Condition

Mr. Neil Crawford, Hamilton, Ont., writes: "My nerves were in such bad condition I found it almost impossible to get a good night's sleep. I was also bothered with headaches and dizzy spells."

I tried many different remedies, but they did not seem to give me much relief, but after I had taken Milburn's Heart and Nerve Pills I could hardly believe the change they had made in my condition."

For sale at all drug and general stores; put up only by The T. Milburn Co. Ltd., Toronto, Ont.

Electric Eye Records Activity Of Housewife

Information Obtained By U.S. Bureau Of Home Economics

For each member of her family, the average housewife makes 18 trips a day to the kitchen sink, according to a February issue of the American Journal of Home Economics.

Each time she goes to the sink the article shows, she spends, on an average, one minute.

Thus, the homemaker in a family of five will average 90 trips daily to the sink and will work there for an hour and a half.

A photo-electric eye was used to help record every trip made, together with the time spent at the sink. The U.S. Bureau of Home Economics was asked to make this study by the chairman of the committee on kitchens of the president's conference on home building and home ownership, and it received outside co-operation.

An analysis of the study shows that the Washington, D.C., housewives in whose kitchens the photo-electric eye was placed, spent from 38 to 152 minutes at the sink each day, while the number of trips varied from 32 to 217. The reasons for these variations, according to the article, can be determined only by more detailed studies. The definite factual data hitherto unavailable in such studies should make possible more definite conclusions as to the comparative efficiency of different types of kitchen arrangement, Dr. Stanley says.

Rich Gold Strike

New South African Field Opens Up Great Possibilities

Another great gold strike—possibly equal to past rushes which helped end former depressions—was described to the American Institute of Mining and Metallurgical Engineers.

One-eighth of the world's present gold production is the estimate, though not yet proven, capacity of this new field, the Consolidated Goldfields, South Africa. This dazzling estimate was reported by F. W. Lee, supervising engineer, geophysical section, United States Bureau of Mines, Washington.

It caps several weeks of reports in inside circles of New York engineers that the new South African field might produce enough gold to start the ball rolling toward world prosperity.

Lee told the story of how the "scientific" "diving rod," the magnetometer, located the ore.

"The greatest outstanding achievement of the year," said F. W. Lee, "was made by the engineers in the Consolidated goldfields. Here the sub-outcrop of the main reef series was traced from Middelveld through properties of the Westward area, a distance of from 30 to 40 miles."

Long Gas Line

Proposed To Build Gas Line From Alberta To The Coast

The findings of the Alberta conservation commission is expected to have a bearing upon the plans of oil syndicates to construct a pipe line through to the coast to supply the cities of Vancouver in British Columbia, and of Spokane, Seattle and Tacoma in the state of Washington, with natural gas, it was stated by William C. Fisher, of Calgary.

"This is not a visionary project," said Mr. Fisher. "The findings of the conservation commission will determine the extent of the gas pressure in the Turner Valley area."

"If it is proved that the field can guarantee a 20-year supply, there should be nothing to hinder the proposed gas pipeline to the coast for the supply of cheap natural gas."

Catalogues Human Diseases

Retina Of Eye Affected By Any Abnormal Condition

Practically every disease common to man, says Dr. Clarence R. Ellis, of the Ohio State University applied optics department, can be diagnosed by an examination of the retina of the eye.

Any abnormal condition, he explained, affects the retina immediately—particularly such diseases as brain tumors, heart trouble, cancer and inflammation of the liver.

The chief cause of eye trouble, he added, is the use of too powerful light bulbs in reading lamps.

Canada's acreage in field crops increased from 15.6 million in 1890 to nearly 58 million in 1931, or by approximately 272 per cent.

Ninety per cent of the world's clothing is made of cotton.

People of Denmark are against the idea of using silver in coins.

Robe Proved Good Mascot

Gift Of Maori Chief Treasured By British Admiral

Admiral Sir Lionel Halsey, controller and treasurer to the Prince of Wales, told the Authors' Club at London, England, of a New Zealand "kiwi" robe which he wore whenever he fought in action during the Great War.

The garment, a kind of kilt made of flax, was given to him by a Maori chief when he was in command of the battle cruiser "New Zealand."

The "New Zealand" went on a cruise to the dominion. One chief, after being shown over the ship, gave him the "kiwi" robe and asked him to promise that whenever he took the ship into action he would wear it. He told him that it had been worn by his forebears in war, but that it would never be required in that country again.

August 28, 1914, when the action of Heligoland was fought, Sir Lionel said he wore the robe in the coming fight, and he added that the "New Zealand" never received a scratch during the fighting.

After this the garment was looked upon as a mascot. On Jan. 24, 1915, the "New Zealand" fought the German ship "Blücher," which was sunk. Again he wore the "kiwi" with the same result, the "New Zealand" receiving no damage whatever.

In May, 1915, he left the "New Zealand" to Captain, later Admiral, Sir John Green. He handed over the "kiwi" to his successor and in the Battle of Jutland Captain Green wore it when he took the ship into action. Two ships in his own line were blown up and sunk, but the "New Zealand" received practically no damage whatever. After the war, Sir Lionel added the garment was returned to him and it was one of his most treasured possessions.

Another Use For Radio

Fever Machine Is Newest Treatment For Certain Diseases

A "fever machine" which treats disease by the power of radio waves to raise the temperature of the body was described before the American College of Physicians at Montreal.

It is a new application of radio, treating disease instead of sending messages, and was reported by Dr. Walter M. Simpson of Dayton, Ohio. The machine is used in treating diseases that are sometimes cured and often improved by producing artificial "fevers" in the body. Among these diseases are general paresis, a form of paralysis that attacks many insane persons, some forms of arthritis, a disease of the joints, and diseases that affect the bodily extremities—arms and legs, feet and hands.

The fever machine is a short-wave radio transmitter, which "broadcasts" 30-meter radio waves through the patient from large metal plates.

Orient Buying Wheat

Shipments From Canada This Season Total 8,814,011 Bushels

Steadily increasing demand in the Orient for wheat is instanced by the fact that Canada has shipped 8,814,011 bushels to China and Japan so far this season. This is 677,413 bushels greater than consignments at this time last year, and it is believed final figures will exceed last year's mark by more than a million bushels.

Bookings up to the end of March for the Orient are 366,566 bushels. Only the lower grades are wanted, and Australia, near at hand, has been getting the lion's share of the business.

A Mark Twain Story

When Mark Twain was a young and struggling newspaper writer a lady of his acquaintance saw him one day looking at a shop window, with a cigar box under his arm. "Mr. Clemens," she said, "I have seen you with a cigar box under your arm. I am afraid you are smoking too much." "It isn't that," said Mark Twain. "I'm moving again."

A machine in the coast and geodetic survey office at Washington, D.C., can predict the tide for any place in the world, at any hour, for centuries to come.

CHEST COLDS—MECCA OINTMENT AND MUSTARD POLTICE

Relieves Cough—Does Not Irritate

At first sign of a cold on the chest apply Mecca Ointment with the addition of mustard. The heat of the mustard with the vapors of Mecca Ointment will give quick relief. Full directions in each package.

Art Competition

Manitoba and Quebec Student Architects Win Awards

Manitoba and Quebec student architects won awards in the Royal Architectural Institute of Canada competitions, result of which were announced recently.

Leonce Desgagne, Ecole Des Beaux-Arts, Quebec, won first prize in the class "A" project, in which 53 designs were submitted, and Eric Thrift University of Manitoba, was awarded first prize in class "B" project. Forty-nine designs were submitted for the latter class.

Maurice Germain, Ecole Des Beaux-Arts, Montreal, won second in class "A" project; G. R. White, University of Toronto, was third, and William Sheets, University of Manitoba, received honorable mention.

In class "B" Lowell Wallace, University of Manitoba, was second, and I. M. Saunders, University of Toronto, third. The University of Alberta had one design entered in the class "A" project and eight in class "B" but won no prize.

The jury of award consisted of: H. L. Featherstonhaugh, Montreal; Irene Vautrin, Montreal; Wilfrid Lacroix, Quebec; John M. Lyle, Toronto, and H. J. Burden, Toronto.

The Jig-Saw Puzzle

Demand In The United States Ahead Of Supply

Americans bought jig-saw puzzles to the amount of \$10,000,000 in 1932, an increase of 70 per cent. over 1931. More than 2,000,000 persons purchased interlocking jig-saw puzzles that require real skill. More than 15,000,000 solved the simpler cut-out puzzles, stamped, not sawed. This growth in the puzzle craze has given employment to more than 20,000.

The enthusiasm for home entertainment has been reflected in a 20 to 50 per cent. increase in sales of all parlor games, toys, horse race sets, roulette, table tennis, bee bees and dart games.

Although several hundred manufacturers have entered the cut-out puzzle field in the last few months, demand is still ahead of the market. The release of the cheaper puzzles has educated a vast new army of puzzle addicts who graduate to more difficult varieties. Manufacturers estimate that the jig-saw puzzles have been increased 30 per cent. in intricacy to meet the new vogue. Some puzzles have as many as 1,800 pieces.

Old fashioned designs featuring Colonial costumes, hunting scenes, copies of famous paintings, etc., still are the most popular, although there is a vogue for comics.

Proposes Revised Dollar

Professor Leacock Suggests Reducing Gold Content To Seventeen Grains

Proposal to re-establish the redeemable gold standard with a dollar of 17 grains of gold instead of the present 23 was made by Prof. Stephen Leacock, head of McGill University's political economy department, in a speech before the Empire Club at Toronto.

This, he claimed, would cause immediate rise in prices and stimulate production of all sorts. "The gold from the Canadian mines," he explained, "would be taken as the basis of a paper currency redeemable in gold at 17 grains to the dollar. The \$60,000,000 now produced annually would represent \$80,000,000 in the new dollar and could be used to carry \$240,000,000 worth of paper. Of this, one-third would pay the mine owners."

Stratosphere Plane

Prof. Picard Believes He Can Build a Plane That Will Cruise Upper Atmosphere At High Speed

Prof. August Picard, explorer of spaces 10 miles above the earth, is convinced he can build an airplane capable of flying through the stratosphere at 500 miles an hour.

The statement came in answer to a question by Dr. John Caruthers, secretary of the Los Angeles University of International Relations, as to whether the Swiss scientist thought he could construct such a plane if he were furnished \$500,000 for the purpose.

"I believe I could do so within a year and a half," he said. "And in my opinion the stratosphere plane is a thing of the very near distant future."

Professor Picard last August ascended to an altitude of 10,455 miles in a special balloon to obtain experimental data on cosmic rays.

Canadian Egg Inspection

In 1931 the Egg Grading Service of the Department of Agriculture inspected 769,919 cases of eggs. In addition to the regular work of inspection by approval, the inspection staff makes approximately 40,000 calls annually on wholesale and retail dealers throughout the country. This is for the purpose of checking up on outgoing shipments of deliveries, the purchase of current receipts from producers, country store-keepers and jobbers, and giving instructions and direction in candling and grading in accordance with the Canadian Standards.

A patent for a medical compound is obtained only in rare instances in the United States.

Appliance For Railroads

Any sudden depression in a railway track is instantly detected and marked on a chart while the train is passing over it by a new appliance designed by an Australian inventor. It does away with the need of a daily inspection of the line.

Three-day census shows 4,000 homeless men, women and children in Cleveland.

UNITED ACTION IS NEEDED TO SAVE COUNTRY

Ottawa.—Recovery from economic stagnation can come only from unity of action and unity of action could be made possible, or at least hastened, by a National government, Sir Arthur Currie, principal of McGill University, Montreal, said at a gathering of McGill Ottawa Valley graduates.

"All our scattered forces must be combined to lead us out of the morass of doubt and even despair," said Sir Arthur. "It is extremely doubtful, in my judgment, if our desired objective can be reached by a politically divided country."

"Unity of all, for the good of all, would seem to be our surest and safest guiding force. We had to meet a national emergency 16 years ago. We met it with unity. In that troublous time all party prejudices, badges and slogans were forgotten or submerged and as a people we moved forward in one solid front to victory, not otherwise could we have found success."

The present situation was more perplexing and serious than that of 1917, said the distinguished soldier and educationist. It was time prejudices, badges and slogans were forgotten in a united effort to move toward prosperity, security and stability.

"There is stagnant industry," he said, "tottering business, distress, despair, all urgently demanding redress. And redress can come only from unity of action, which can be made possible, or at least hastened, I believe, by a national government, representative of all the forces and all the thought of the country."

"The establishment of such a power would mean sacrifices, a spirit of give and take, a measure of temporary compromise. But in the end it would succeed. In the past one of our political weaknesses has been the fact we are all interested in voting for or against someone, rather than for or against something."

No criticism of any party, group or policy was to be implied from his views, Sir Arthur stated. The times called for strength and national distress pointed to a common objective, rehabilitation. Surely men of ordinarily divergent views could agree on the need of immediate action.

If the depression continued there was a danger of all sorts of quick remedies being accepted and applied through ignorance and hysteria, he went on. Canada had emerged from one fool's paradise and should be careful not to grope her way into another "following a will-of-the-wisp guide."

Bill Goes To Senate

Federal House Passes Measure Extending Ten Per Cent Salary Cut
Ottawa, Ont.—The bill to extend the civil service salary reduction for another year passed all stages of the House of Commons and was sent to the senate. The measure continues the 10 per cent. reduction in the salaries of civil servants and members of parliament until the end of the fiscal year 1933-34.

About 60,000 people were affected by the 10 per cent. salary reduction, Hon. E. N. Rhodes, minister of finance, said. In addition to 13,000 casual employees and postmasters of small centres operating on a commission basis, the following public servants would be affected:

Salaries below \$1,200—16,408.
Salaries between \$1,200-\$2,000—22,745.
Salaries between \$2,001-\$3,000—6,123.
Salaries between \$3,001-\$4,000—1,579.
Salaries between \$4,001-\$5,000—461.
Salaries over \$5,000—215.

Royalty Sees First Talkie

London, Eng.—The king and queen have seen their first talking movie and apparently enjoyed it. It was the premiere of the screen version of J. B. Priestley's "The Good Companions" shown as a benefit for the unemployment relief fund. The performance was declared a great success, the proceeds totalling about \$40,000.

Predicts T-J-Rap War

Richmond, Va.—Asserting that the United States and Japan inevitably will meet in a future war, General William Mitchell, former chief of America's army air service, recommended the mobilization of air power in Alaska.

Indian Goes Modern

Now Taking His Place In Affairs Beside the White Man

Ottawa, Ont.—The Indian has gone modern, entering professions, graduating from universities and taking his place beside the white man in business, and high finance, Hon. T. G. Murphy, Minister of the Interior, told the House of Commons today. But the Indian retains all his williness and adroitness—he often refuses to become a nationalized Canadian, subject to legal action and taxes. The Indian, as the ward of the Dominion pays no taxes, has no vote, cannot be sued in a civil court and "is quite enough to want to stay that way."

"That was the reason, said Mr. Murphy, why the government sought power to compel Indians to be franchised—so they would assume the responsibilities as well as the privileges of citizenship."

For the entire sitting the House discussed the Indian and his problems. Liberals objecting to the compulsory enfranchisement provisions of the government legislation.

Premier R. B. Bennett finally poured oil on the troubled waters by saying a change would be made in the system of enfranchisement—a board consisting of a representative of the Indian tribe, a representative of the Indian Department at Ottawa and a county court judge, would be established to review each application.

Studying Income Tax Law

Government Seeks Workable System To Cover Bearer Bonds
Ottawa, Ont.—The quest for a workable system of enforcing the income tax upon income derived from bearer bonds continues.

The proposal to apply a flat rate of four per cent. on all interest coupons presented to the banks for payment has lost ground heavily in the past few days. It is claimed that to adopt such a policy would be to invite wealthy citizens with liquid assets to invest these assets in bearer bonds to reduce their income tax rate to four per cent.

Another proposition has now been put forward which, it is understood, is meeting with a more favorable reception by the cabinet. This plan is to compel all persons cashing interest coupons to make out a certificate of ownership. The certificate would be given to them by the banks when the coupons were presented for payment. In addition to declaring ownership, the bond holders would have to sign an affidavit declaring the income concerned had been shown on their tax statements. The certificate and affidavit, of course, would be forwarded to Ottawa and checked against the tax statements.

Price Remains the Same

Radio License Will Be Two Dollars For Another Year

Ottawa, Ont.—Radio licenses will remain at the \$2 figure for another year, Hon. Alfred Durneau announced in the House of Commons. At the same time he expressed the hope the Canadian radio commission would limit programs to advertising produced in Canada, goods or to Canadian non-advertising programs.

The House "went on the air" discussing radio estimates of the Department of Marine and taking in a wide range of topics. No decision had been made, the minister said, on the system of collecting receiving licenses this year although the object was to force every owner to pay his fee.

Mr. Durneau said the department this year would be paid for 100,000 more radio licenses at \$2 less the 40 cents commission, under the house to house canvass system.

Health Insurance

Edmonton, Alberta.—Only by a contributory health insurance scheme can adequate state medical services for all Alberta people be secured, according to the state medicine committee's report, tabled in the Alberta legislature by Hon. George Hoadley, minister of health.

May Amend Game Act

Edmonton, Alberta.—A government bill to amend the Alberta Game Act, if accepted by the Alberta legislature will permit farmers to shoot game birds anywhere in the province without a license. At present the farmer can only shoot game birds on his own property without a license.

World Postal Congress

Ottawa, Ont.—Executive of the world postal union will meet in Ottawa from May 18 to June 29 to pre-congress to be held in Cairo, Egypt, congress to be held in Cairo, Egypt, next February.

Protest Arms Embargo

Should Be Limited To Aggressor

Nanking, China.—It was officially announced that China was making representations in London in connection with the British arms embargo against China and Japan.

Spokesman for the Chinese National Government foreign office said any Far East arms embargo should be limited to the aggressor warring war on China. "It is a colossal blunder and it will have absolutely no effect on the present hostilities."

Tokyo, Japan.—Great Britain's announcement of an arms embargo against Japan and China was interpreted by Japanese authorities as meaning a handicap for China only. In official and business circles there was uneasiness lest the embargo turn out to be only the first instance of pressure against Japan, with the possibility of eventual economic sanctions.

Fine For Honeymooners

Mussolini Cuts Railway Fares For Newly Weds

Rome, Italy. Honeymooners have been streaming into Rome at the rate of 2,000 couples a month since Mussolini granted them reduced railroad rates.

The order cutting 70 per cent. off newlywed fares from anywhere in Italy has been in force seven months. In that time 14,000 couples have visited the capital.

Pope Pius has received practically all of the visitors. He gives each bride a rosary and each bridegroom a religious medal.

GERMANY TO TAKE MEANS TO SUPPRESS REDS

Berlin, Germany.—Hermann Goerring, minister without portfolio in the Hitler government, declared in a speech that the incendiary fire at the reichstag building was meant to inaugurate a series of violent acts culminating in a Communist revolution.

For this reason, he asserted, the government was justified in promulgating its draconian decrees of the last few days, which have already increased penalties for treason and have placed Germany under virtual martial law.

Captain Goering declared the lives of Communists and Socialists were not endangered so long as they kept strictly within the law.

Chancellor Hitler, addressing a delegation of Nazi workers, promised to ameliorate the lot of the German workman so that Communist arguments no longer would draw him.

The nation-wide process of squelching Communism continued unabated, with hundreds of leading Communists undergoing arrests, while many others fled into hiding.

Extensive precautions were resorted to for the protection of railways, bridges and power stations. Numerous armed guards were posted.

Squads of armed storm troops, in the brown Nazi uniform can be seen at any time marching through Berlin streets on auxiliary police duty. About 3,000 are in service here. Throughout Prussia there are about 60,000 of them.

CALLED TO BAR

Lady Chatterjee, wife of Sir Atul Chatterjee, head of the Indian delegation which came to Ottawa to the Economic Conference last summer, has been called to the British Bar at Lincoln's Inn. Lady Chatterjee has been studying law for a number of years.

Millionaire Released

Chas. Boettcher, Kidnapped February 12, Is Freed By Abductors

Denver, Col., Chief of Police Albert T. Clark announced that Charles Boettcher 2nd, heir to millions, who was kidnapped February 12, had been released by his abductors and that no ransom had been paid.

Chief Clark said the 31-year-old broker was released from a motor car and immediately communicated with the home of his father, Claude K. Boettcher. He was taken to the elder Boettcher's home and the chief of police rushed there to question him.

Clark said young Boettcher was in good condition when released. Details of the release were not immediately available, but Clark said Boettcher had been released from the car on the outskirts of the city. Clark said he did not have full details of the release, but reiterated that no ransom had been paid.

Boettcher, prominent young Denver broker and member of one of the city's wealthiest families, was abducted by two men from the garage at his home Sunday night, February 12, and held for \$60,000 ransom.

New Motor Law

Bill Introduced In Saskatchewan Legislature For Protection Of The Public

Regina, Sask.—Motorists responsible for an accident will have their license taken away until they pay any judgments rendered between \$100 and \$1,000 for property loss, \$5,000 for the death of one person or \$10,000 for two or more deaths, according to a bill brought into the legislature by Hon. A. C. Stewart, minister of highways.

The proposed act also provides proof of financial responsibility before an auto license is issued to any person under 21 or over 65 years of age, or anyone held responsible for a motor accident.

Saskatchewan's proposed law on financial responsibility of motor owners and drivers is modelled after Ontario's law.

The proposed act does not deny the plaintiff in any motor accident case from proceeding for remedy under any other section of the law.

ARGENTINE TRADE MISSION IN ENGLAND

Dr. Julio Roca, Vice-President of the Argentine, is shown with General Sir Charles Harrington, G.O.C., when he visited the Alershot Command in Hampshire. Dr. Roca is in England at the head of the Argentine Trade Mission seeking trade treaties with the Mother Country.

Banning Allegiance Oath

De Valera In Position To Force Removal From Constitution

Dublin, Irish Free State.—In sixty days the oath of allegiance to the British crown will vanish from the constitution of the Irish Free State and become a dead letter in the Anglo-Irish treaty.

The Dail Eireann passed by a vote of 75 to 46 a government bill abolishing the oath of allegiance to the British crown. The measure now goes to the senate.

The constitution provides that bills which the senate refuses to pass in such a manner as to satisfy the lower House will, at the expiration of 18 months, become law despite the senate.

In the event the bill is dissolved in the meantime, the waiting period is shortened to 90 days.

After the 1932 elections, when Mr. de Valera found himself heading the government for the first time he immediately attempted to remove the oath. He was blocked by the senate. He is now in a position to force removal of the oath, but is still faced with a possibility that this move will fail to satisfy left wing extremists, including the old Sinn Fein.

Royal Assent Given Bill

Authority Granted Manitoba To Borrow For Financing Relief

Winnipeg, Man.—Authority for Manitoba to borrow money for the financing of unemployment relief and to lend money to municipalities for their share of relief costs, was granted the province when Premier John Bracken's bill was given royal assent.

Although the act as it was amended by the senate provides for the province borrowing money without specifying the source of the loan, Premier Bracken served notice on the House that later in the session the members will be asked to unanimously request the Dominion to make loans to the province.

Gun Running Plot

Seizure Of Machine Guns In Vancouver Leads Police To Investigate

Vancouver, B.C.—Seizure by police of six machine guns, dissembled and expertly packed in the back of a parked automobile and more than 100,000 rounds of ammunition, has led officers to investigate the possible existence of an international gun-running plot centering in Vancouver. Authorities are attempting to trace the origin of the guns, convinced they were designed for shipment to China to be used in operation there against the Japanese. No local trouble, police point out, could possibly call for the use of such a formidable array of guns and large amount of ammunition.

RAILWAYS WILL MAKE USE OF AUTO TRUCKS

Montreal, Que.—An important development in freight services on the Canadian National and Canadian Pacific Railways which will provide door-to-door pickup and delivery of freight shipments without extra cost to either shipper or consignee, was announced jointly by George Stephen, vice-president in charge of traffic of the Canadian Pacific Railway, and Alistair Fraser, K.C., acting vice-president in charge of traffic of the Canadian National Railways.

The two railways, the announcement stated, had completed contracts with approximately 45 trucking firms at cities and towns served by their lines in western Ontario, between Toronto and Windsor and Toronto and Sarnia, whereby pickup and delivery service will be provided for shippers at no extra cost. New tariffs embracing this feature will become effective this week.

The railways, it was emphasized, are not entering the trucking business. At some of the points affected by the new tariffs, they already have contracts with cartage firms for pickup and delivery of freight.

Under the present plan, however, this service is extended, by arrangement with local trucking contractors, to points where pickup and delivery service did not previously exist.

The new door-to-door consignment system will improve the service offered at such points and will make use, under contract, of existing cartage services instead of involving the organization of new facilities for that purpose.

JAPANESE ARMY BREAKS DOWN CHINESE DEFENSE

Chinchow, Manchuria.—Japan's invading force has broken through the strongest Chinese defenses, less than 75 miles from Jehol city.

The 16th infantry under General Tadashi Kawahara poured into Ling-yuan, passed through without stopping, captured the town of Butoaling, a few miles west, and kept right on to Peking, on the motor highway which leads to the capital.

General Kunizuo Matsuda, commanding the 11th infantry, moved down from the north, having captured Ching-feng, and is now waiting at Ching-feng.

The cavalry took Ching-feng without a fight, for when they came within sight of the city of Shi Wen-Hua, the Chinese commander already had hoisted the flags of Japan and Manchuria. Apparently he was willing to throw in his lot with General Mogi and join in the final advance against Jehol city.

Despatches from that capital said two Japanese 'planes had bombed the new airfield near the city. All through the previous stages of the attack, the Japanese preceded the attack of the main force.

General Tang Yu-Lin, provincial governor of Jehol, has given no sign of his intentions. The Japanese still hope he will surrender.

The worst of the fighting in the mountains apparently is over but there have been skirmishes, some of them heavy, indicating that the broken Chinese forces are worrying the Japanese flank.

Part of the advancing forces are moving west along fairly good roads by motor truck and armored cars from Ling-yuan. Despatches reaching here indicated that should the resistance encountered in the next few days be no more serious than that already overcome, the Japanese will make good their prediction that Jehol city will fall before another week has passed.

Death Of J. B. Campbell

Was Father Of Proprietor Of Edmonton Bulletin and Regina Daily Star

Vancouver, B.C.—J. B. Campbell, 73, for a quarter of a century shipping master of Vancouver harbor, is dead. He had been ill for four months. Born in Woodville, Victoria County, Ontario, John Bell Campbell came to Vancouver in 1888. Besides his long public service in the federal marine department here, he was alderman for Ward for six years.

Charles E. Campbell, proprietor of the Edmonton "Bulletin" and Regina "Star," is his only surviving son. His wife survives him and there are three grandchildren. Three brothers, F. G. Charles and G. L. Campbell, resident in Vancouver and a fourth brother Archibald, in Toronto, also survives.

May Require Lights

Toronto, Ont.—Pedestrians in Ontario may or may not be required to carry lights when walking on the king's highway. A bill sponsored by W. E. N. Sinclair, K.C., House Liberal leader, which would require the walkers to light up was sent to the legal committee of the House for further consideration.

Dividends Run Into Millions

Toronto, Ont.—Despite adverse business conditions dividends to be paid in March by Canadian companies may exceed \$16,000,000 when all declarations are made. At present some 43 companies have declared dividends and there are a few more which usually make payments in March.

May Close High Schools

Calgary, Alberta.—Closing of Calgary high schools may occur unless the city can find a way out of its present financial predicament. It is understood. Struck severely by declining revenue following the depression, the city is forced to every economy. Primary schools would not be shut down.

No Recent Loans Made

Winnipeg, Man.—Loans have been made by the Dominion government to the provinces, including Manitoba, but none have been made since April, 1932, for direct unemployment relief, stated Premier John Bracken in the legislature. Neither had loans been made in respect of the municipalities' share of the expenditure.

NOTES AND COMMENTS

March came in like a lamb, the first day being brilliant with sunshine, with cloud contrasts against the snow peaks which made one feel glad to be alive. How it will end need not worry us, as spring is on the way, and already the boys are playing marbles and the sportsmen are counting the days till the opening of the fishing season. No matter what the evictions of our daily lives may be, there is always ample opportunity for recreation, especially in the mountains.

"The Christian feeling is not yet dead in some places," and "Further more, we as loyal Canadians, deem it our duty to help the Government in these times of stress and relieve them of some of their responsibilities, consoling ourselves with the thought that it is more blessed to give than to receive." These words are contained in an appeal by William Knight, mayor of Blairmore, for a voluntary contribution of 5% for local relief. "Bill's"

attitude is becoming more mellow quite early in his mayoral career, for he also quotes: "God made man after His own image." The new mayor is getting right into action. The first week he swung the axe and lopped off a few heads; the following week he quotes scriptural passages. What next?

A Coleman minister spoke plainly in recounting some of the incidents connected with the efforts of the Communists to assume dictatorial power in Crows Nest Pass towns. These attempts to control and dictate, through the miners' unions and municipal councils, were frustrated in Coleman. The minister's address to his clerical brethren in a conference at Calgary was given wide publicity, quite unintentionally on the minister's part. But it gave the Communist leader of the outworn Mine Workers Union of Canada an opportunity to reply at considerable length. Nothing pleases Communist propagandists greater than to seize every opportunity to write letters—especially to the "Capitalist" press which they so often deride.

The "Drys" in Alberta are again badgering for abolition of the beer parlors and the banning of advertising of liquor. They would again drive the traffic into underground channels thereby bringing back those evils which the re-opening of beer parlors and government liquor stores was

calculated to minimize. Hi-jacking and rotten liquor are vivid memories. Legalized sale of liquors has practically eliminated these evils, and the buyer has protection in the quality of the stuff sold.

Experiences of the United States and of Canada during prohibition days demonstrate that so-called prohibition simply does not prohibit. If legal manufacture and sale is prohibited then look out for the evils and crime that follow in the wake of nationwide illegal liquor traffic.

The Kimberley Courier states: "House-to-house salesmanship by out-of-town firms who contribute nothing towards the support of the town is a growing evil."

The provincial government ordinances permit farmers to come into towns and sell their meat, butter and eggs. They also constitute competition for the merchant who is here to serve people every day; not just when, like the farmer, he has surplus stock to sell. No person will begrudge the farmer seeking a market for his produce, for he has to compete with the wide world. Yet there is unfairness against the established merchant who is saddled with expenses which the itinerant seller escapes. Of course there are merchants who hide their light under a bushel, and a glance through a local newspaper fails to disclose any publicity concerning their business.

But the enterprising merchant, serving people every business day, furnishing free delivery and a wide assortment to select daily purchases from, is certainly deserving of preference in household buying of supplies.

Isaac W. C. Solloway has written a book in which he lambasts some of the politicians whom he alleges were responsible for his downfall. Solloway engaged in a business in which profits, paper or otherwise, were obtained without toiling or spinning; by inducing the "suckers" to come on while the getting was good. Human nature fails for this type of exploiter and the past three years has seen the finish of many whose castles were built upon sand, including the great and would-be great. Experience is the most effective teacher; very costly though it is as a general rule to those who indulge in speculation in the effort to become rich at the expense of others.

The people who so urgently press for the repeal of Section 98 of the Criminal Code are those who want freer rein for their utterances against the laws of Canada. It is members of organizations seeking to overthrow constituted authority who so earnestly press for the repeal of Section 98. J. S. Woodworth at one time was of such a party, and he still endeavors to hold favor with the extreme radicals by his political utterances in the House of Commons. There are very good reasons why the section should stand, as law abiding citizens of the Crows Nest Pass know only too well.

It is a strange but unquestionable fact that the modern passion for speed has never been extended to getting up quickly in the morning.—Cranbrook Courier.

Jig-saw puzzles are now the rage, similar to the sensation caused by "Yo-yo" a year or two ago. It has an advantage over the latter, for piecing the puzzles to make a picture keeps adults and young people so engrossed that they do not disturb others in the household. The jig-saw puzzle industry will furnish employment for many.

Chas. Nicholas Announces

that he will place on sale a very attractive stock of
HOUSE DRESSES
which will make a particular price appeal, and you'll be delighted with the materials and values.

I have also arranged for arrival shortly a consignment of
NEW DRESS GOODS
for Spring Sale.

You will find that our values will save you money. Be sure and call and you'll be a satisfied customer.

BUY FROM NICHOLAS AND SAVE—WE CAN CLOTHE THE ENTIRE FAMILY

WELL HERE'S NEWS!

MR. W. D. LOWDEN

The special head office representative of Tip Top Tailors Limited, will be at our store on

WEDNESDAY, MARCH 8th

Years of experience have placed this Tip Top representative in the forefront as a clothing specialist. As an expert in woollens and style trend he will be glad to offer you the benefit of his wide experience and, in addition, he will also personally measure all customers who place their orders during his visit.

The new astounding low price of Tip Top Clothes at \$22.50 makes them by far the best value on the market today.

At the new low price you positively get the same high quality of woollens, the same high grade tailoring. Every garment is personally measured and custom tailored. Fit and satisfaction guaranteed—only the price is lowered.

World Trade Of Britain Continues To Expand, Despite Existing Conditions

Undeterred by adverse world conditions and by the prolonged period of difficulty through which it has passed, industrial Britain goes steadily ahead receiving and filling orders for foreign account, often in the face of severe competition from other nations, and thus continuing to build up Britain's reputation as a centre for the production of superior manufactured articles in widespread demand.

Of decided interest to Canadians is the announcement made by representatives of the Welsh Linen trade of a record order from the American Can Company, operating works in Montreal and Vancouver, for a million boxes of textile valued at \$700,000. The firm receiving this order controls 20 textile works in South Wales, in addition to six iron and steel plants, and already the effects of the contract are being reflected in increased activity in local industrial circles.

A Manchester plant has recently completed a contract for eight heavy mixed-traffic locomotives for service on the Chinese Government Railways and the locomotives, fully erected, have been shipped in a vessel specially equipped for such consignments. Locomotives of this description have been supplied to China by United States firms in the past.

Four oil-electric locomotives, the largest yet produced in Europe, are about to be shipped from the Armstrong-Whitworth works near Newcastle-on-Tyne to South America for use on the Buenos Aires Great Southern Railway.

Two engineering firms are reported to have jointly secured a contract for gasoline storage tanks which are to be erected at Haifa, Palestine, for the Iraq Petroleum Company. The contract, Industrial Britain reports, is worth \$150,000 and was secured in the face of world-wide competition.

From Durham county comes word of the receipt of orders from Czechoslovakia and Holland for coal-cleaning equipment representing a total value of more than \$40,000. Orders from Persia for textile machinery to the value of \$40,000 have been received by Lancashire firms. These orders follow the announcement that the Shah of Persia has given instructions that the machinery for a number of spinning and weaving mills that are being established in that country must be ordered from Great Britain.

Another big contract has been placed by the Russian trade agency with a Manchester firm for a railway axle plant which is to be installed by the Soviet Government with an annual output of 270,000 axles. The same firm has recently completed a large Russian machine tools order, and the latest one was obtained in the face of severe competition from Germany.

A Bolton concern of machine-tool makers reports the successful conclusion of negotiations with Canadian buyers for various types of tools formerly purchased from the United States. The order, it is stated, runs into thousands of pounds in value.

Thus, in hard times as well as in good times, the British industrialist goes steadily forward capturing orders for the provision of machinery or other articles to foreign countries, notwithstanding severe competition from other nations. His business surmounts tariff and other barriers and the world continues to be his market. That he is enabled to receive his due share of foreign orders is principally due to the quality of his output, for it is universally recognized that British goods are satisfactory goods and in spite of great temptations, the British industrialist has consistently declined to put an inferior article on the market.

Those who are accustomed to argue that Britain is dead industrially and otherwise fail to take into account the energy with which the British manufacturer continues to seek an outlet for his goods and the market which those goods continue to command, on account of their inherent quality, in spite of world conditions in world trade.

Rice Growers Face Ruin

Empire Agreements Have Destroyed Trade For British Guiana

About 150,000 of the inhabitants of British Guiana are faced with ruin as a result of the Empire trade agreements reached at Ottawa, according to advices received at Port of Spain, Trinidad, giving the views of the Demarara Rice Marketing Board. Guiana formerly had a preference for its rice in the British market, but under the Ottawa agreements India gets the same rates and has been driving out Guiana rice. An appeal has been made to London for protection of the former market, but the authorities have been informed that no discrimination can be made. About half the population of Guiana is dependent on rice growing.

Street Purposes Have Changed

New Planning Necessary Opinion Of President Of British Architects
London hears a novel analysis of modern street traffic problems by Sir Raymond Unwin. The president of the Royal Institute of British Architects says street purposes have entirely changed. We run what are practically locomotives at locomotive speed on highways meant for horses and pedestrians. A complete new planning must come. It will expedite traffic through streets on which are no shops, and will assure safety of adults and children on foot. The pedestrians will move leisurely in parallel streets which will have shops but no motor traffic.—Christian Science Monitor.

By Ruth Rogers

457
A TAILORED JUMPER OR SPRING-GREEN QUEEN WITH A SHEER FRESH YELLOW DIMITY BLOUSE

Doesn't it all sound charming? The caplet collar is finished with a tiny frill with green piping edge. The tiny ruffling appears again on the cuffs. Pin tucks are decorative at the front of the blouse.

This cute rig can also be made with short sleeves as in small back view. For frankly hot weather wear, the sleeves can be omitted from the gullepe. You will note the cape collar just turns the shoulder, which gives a very pretty effect.

Besides cottons, wool crepe and wool jersey can be used for the jumper with a tubular gullepe.
Style No. 457 is designed for sizes 4, 6 and 8 years.
Size 4 requires 1 1/2 yards 35-inch, with 1 yard 35-inch for blouse.
Price of pattern 20 cents in stamps or coin (no cash preferred). Wrap copy carefully.

"Here I sit, scared to death, and too darn lazy to run."—The Passing Show, London.

Need Paid Hunters

To Protect Game In Northern Manitoba From Timber Wolves
With timber wolves increasing in numbers and few pelts being brought into The Pas for bounties, northern Manitobans say that the only way to save the game in the Moose Lake country will be by means of at least two paid hunters. It is learned at The Pas, Manitoba, that only 54 timber wolf pelts were brought there for bounty last year. This does not represent the total number killed, of course, as some pelts go right through to the cities. But the number of wolves killed was small in proportion to the wolf population.

Tom Lamb, Moose Lake trader, has found a number of deer cut down by wolves and left to rot. On a recent trip, he found a beautiful animal that had been killed by wolves. It had been chewed slightly at the throat. Lamb marked the spot intending to bring the deer to The Pas, where he intended to place it on exhibition. On returning a couple of days later, he found the passing Indians had taken part of it for dog feed.

Rapid Growth Of Insanity

Psychology Professor Claims Canada and U.S. Lead World
Canada and the United States in equal per capita are leading the world in numbers of insane, according to Very Rev. Canon Charles Verhejen, professor of psychology and psychiatry at the State University of Amsterdam, Holland, who sailed from Saint John after completing an independent study of psychiatric cases in North America, during which he was attached to the Church of Our Lady of Victory in Saskatoon for two months.

"The rapid growth of insanity is due to a large extent from the depression with its resultant financial worries and the like," said the eminent alienist. "The fast life of this country and the United States is also one of the main causes. Young girls are not heeding the demands of health. They stay up late at night. Get little sleep and rush off to the office headless of breakfast. It just can't be done."

Honor Madame Albani

Marble Bust Of Famous Prima Donna For Quebec Provincial Museum

A marble bust of Madame Albani, famed prima donna of the opera at the turn of the century and one of the greatest artists French Canada has given to the world, has been offered to the province of Quebec by her son, Ernest G. Albani, in London, England, through L. J. Lemieux, Quebec's commissioner there. The bust is the work of Prince Hohenneck and will be placed in the provincial museum at Quebec. It was announced by Premier L. A. Taschereau, who called his thanks to Madame Albani's son, Madame Albani was born in Chambly, Quebec, near Montreal, in 1847, and died March 2, 1930. She was invited to sing before many European courts following her operatic debut in Messina in 1870.

Ask Federal Assistance

Need Aid In Maintaining Medical and Hospital Care In Saskatchewan
Federal assistance in maintaining necessary medical and hospital care for the people of Saskatchewan was urged at Saskatoon at a special session of the Saskatchewan Medical Association. Fifty doctors from districts all over the province attended.

A resolution was passed calling for "the joining of hands on the part of medical services, hospital services and the Rural Municipalities Association in a proposal to the legislature of Saskatchewan for further consideration from federal sources, through the medium of the department of national health, to assistance in maintaining necessary medical and hospital attention throughout the province."

Tobacco exported from Cuba in a recent month was valued at \$1,138,637.

Celestial Phenomena Will Present Many Points Of Interest To Star Gazers This Year

A Wesley Letter

Great Preacher Gave Counsel On The Subject Of Marriage

A letter from John Wesley to a correspondent who had apparently asked the great preacher for counsel on the subject of marriage was sold at Sotheby's in London, England, for \$125.

The letter is addressed to "Mr. Peter Garforth, at Skipton-in-Craven, Yorkshire," and its contents are as follows:

"My dear brother: A person with all the qualifications you mention is not every day to be met with. I do not recollect such a one at present. If I met with or think of one I will send you word I advise you not by any means to engage yourself with a predestinarian. A sensible, well-tempered woman, fearing God though not much awakened, is far preferable. Wishing you may have light from God in that and all things. I am, your affectionate brother, J. Wesley."

Encouraged Flower Farming

Prince Of Wales Helped Miners In Duchy Of Cornwall

The Prince of Wales has been obliged to cancel his proposed visit to the Isles of Scilly. Had he been able to keep the engagement his arrival in the Isles would have coincided with the height of the flower season, and he would have seen the great strides made by those engaged in the bulb industry. The output is greater than ever before. Consignments for market number as many as 5,000 boxes of flowers a day. At the time when the distress among unemployed miners in the Duchy of Cornwall was at its worst, and alternative employment was being sought, the Prince showed practical interest in their predicament by placing at the disposal of several families holdings in the Duchy and by supplying the necessary implements and bulbs to enable them to take up flower farming.

A Custom Of The Sea

British Ships Blow Whistle When Passing Island Near Queensland
Whenever a British ship steaming along the coast of Queensland passes between a certain island and the mainland, she blows a prolonged blast on her siren. The story begins years ago, when a young Englishman engaged on exploration work in that locality had a narrow escape from losing his life. He was rescued just in the nick of time by a native girl, who, to save his life, had to swim with him across half a mile of shark-infested water. The young man married the girl, and they settled on the island. Then, one night, a British vessel was wrecked there, and it was only through heroic efforts by the man that all lives were not lost. He has since died, but the wife and family still live upon the island, and it is to show them that the brave act is still remembered that every British ship sounds its whistle as it passes.

Raising Status Of Iceman
Increased dignity for icemen in California has been decreed by some companies. They have declared that their employees must be called "ice attendants." They must dress in white uniforms with brass buttons and carry the ice in stout black waterproof satchels.

A bore is one who has nothing to say and keeps on saying it.

The sky schedule for 1933 will be of great interest to star gazers, according to the American Nature Association.

Six periodic comets are due for return engagements. Two eclipses of the sun are on the schedule also. Then too, Mars, which is probably of more popular interest than any other planet because of its possibilities as an abode of life and its fascinating and varied surface markings which indicate seasonal changes, came to perihelion on March 18.

Perihelion is that point of the orbit of a planet or comet which is nearest to the sun. This is one of the less favorable oppositions, since the planet is 62,700,000 miles distant from the earth at nearest approach on that date.

Nevertheless astronomers interested in the physical phenomena of the planets are keeping this little neighboring world under scrutiny for some weeks, and we may expect to hear more than usual about the ruddy planet Mars within the next few months.

The comets returning are Brown, Pons-Winnecke, De Vico-Schwinn, Giacobini, Finlay and Holmes. The first was last seen in 1879 and is due to come to perihelion again in November.

The Pons-Winnecke comet has a period of nearly six years and was discovered in 1819. It is due to return again in May.

Giacobini's comet was discovered by that astronomer at Nice in 1900. It is due at perihelion in June. Finlay's comet is also due in June. Holmes' comet was discovered in 1892. It is due in August.

There will be two eclipses of the sun, both annular. An annular eclipse, is one in which the relative positions of sun and moon are such that the moon fails completely to cover the solar disk and there is a thin annulus or ring of light surrounding the dark central disk at the time that would correspond to mid-totally of a solar eclipse.

The first eclipse occurred on Feb. 24. The partial phase was visible in the southern and central part of South America, all of Africa, except the extreme northwestern part, the eastern part of the Mediterranean, Greece, Asia Minor, Persia and Arabia.

The next eclipse will occur on Aug. 21. The partial phase will be visible in central and eastern Europe and northeastern Africa at sunrise, later in the morning, or near mid-day, in Siberia, central and southern Asia, and in the afternoon in the Philippines and East India.

Status Of The Metis

Government Spokesman Says Half-Breeds Not Wards Of Dominion
Half-breeds are not wards of the Dominion Government, said H. H. T. G. Murphy, head of the Department of Indian Affairs. Half-breeds were citizens of the provinces in which they lived, he said, with the same rights and responsibilities as the whites. Their care was a provincial matter.

In the Alberta House it was stated that half-breeds in that province were impoverished. Premier J. E. Brownlee said it had not been decided whether the Dominion or provincial administration was responsible for the care of the half-breeds. It might be necessary for the courts to decide.

The pure-bred Indians are wards of the Dominion Government. They have not the rights of the white citizens. The Dominion Government is responsible that they do not suffer want.

Australia Using Own Currency

A train of ten cars loaded with English silver coins from all parts of South Africa will be sent to the mint in Pretoria within a few weeks. The shipment will be the result of the decision of the Union of South Africa to use its own currency. The total to be withdrawn is estimated to be the equivalent of \$6,250,000, but the intrinsic value of the silver is less than \$2,000,000. The total number of coins to be withdrawn is between 15,000,000 and 20,000,000.

Auto Exports Increase

Increased sale of Canadian automobiles abroad in the brightest spot noted in the February business summary issued by the Bank of Montreal. Greater sales were attributed abroad throughout the whole of 1932 and January's figures reveal expansion of the foreign market is continuing.

Above are the three members of the Royal Commission appointed to report on the economic situation in Britain's oldest colony, Newfoundland. Left to right, Hon. C. A. Magrath, Canada, Lord Anlaurie, Great Britain and Sir William Stavert, Canada.

Could Say Plenty

"Did you ever have the telephone ring when you were in the bathtub and there was nobody at home?"

"Oh, yes," replied the family man. "What did you do?"

"Well, I play a little golf, and I have also made a few remarks to a flat tire, so draw your own conclusions."

Local News

Keep your face turned towards the sun and the shadows will fall behind you.

Mrs. L. Fraser, Sixth street, returned from a three months visit with relatives at Kellogg, Idaho.

Charles Nicholas was in Calgary for a few days making purchases of new spring goods for his store.

Mr. A. Cameron and Rev. A. L. Elliott were guests at supper at the manse on Friday.

A wedding and a funeral service took place within an hour recently in the United Church.

Miss Edith Haysom spent the week end of Feb. 25-26 the guest of her sister, Mrs. J. R. Morgan at Pincher Creek.

Married, on Feb. 25, in the United church, Harry C. Groat of Coleman and Lilian Ida Haysom, Rev. Roy Taylor officiating.

Miss Mary Kilgannon, eldest daughter of Mrs. Kilgannon of Coleman, was married at Los Angeles to Mr. Philip Wagner.

Pincher Creek juvenile hockeyists recently defeated Coleman juveniles by 3-1. The Coleman team included Coccione, Cousins, Kubica, Jenkins Roughton, Vincent, Kanik.

Judging from occasional remarks both spoken and printed, from our do not like Coleman as well as they used to. Grapes, sometimes, are sour indeed!

Mrs. Frank Funk of Spokane came from Spokane, accompanying the body of her father, Mr. John Johnston. Old friends of the family from Cowley who attended were Mr. Robinson, Mrs. Latta and Mr. Robinson.

Mr. and Mrs. French and two children, of White Horse, Yukon, were the guests of Rev. and Mrs. A. S. Farrington. Mr. French is a building contractor and with his family had been on a visit to friends in Alberta.

Mrs. T. Flynn held a very enjoyable bridge party on Feb. 25, three tables being in play. The prize-winners were Mrs. T. Bowen, Mrs. J. A. McDonald, with the consolation to Mrs. Pattinson.

The eight-months-old child of Mr. and Mrs. Joe Bodisch was buried on Saturday, Feb. 25th in Coleman cemetery. The service being conducted by Rev. Roy Taylor at St. Paul's United church.

St. Patrick's night will be observed by a dance at Bellevue under the direction of Ken Blain, for which Arcadians orchestra has been engaged. Many from Coleman contemplate attending.

William Walton, of the Manitoba government telephones staff, Winnipeg, died there on Feb. 23. Word was conveyed to Mayor Pattinson by telephone, they having known each other as boys in Cumberland, Eng. Mr. Walton visited Coleman last year, accompanied by his wife and daughter.

On February 28 a meeting was held in the Ukrainian hall, East Coleman, which was addressed by Comrade W. Sydney, editor of "The Worker," of Toronto. He denounced the "capitalist press," for poisoning the minds of the reading public with untruths, and denounced the mounted police. About 60, including women and children, were at the meeting.

ANNOUNCEMENT
The W. M. S. of St. Paul's United Church will hold a tea and home cooking sale in the club rooms on April 2nd from 3 to 6 p.m.
